*Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, drawn to a knowledge base of workload descriptions and associated configuration parameters to apply to a cluster of nodes, classified in class 707, subclass 1.
- II. Claims 6-17, drawn to re-configuration of node in a cluster, classified in class 709, subclass 221.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as detecting a node in the cluster which requires re-configuration; and reconfiguring said node with selected one of said new generation of configuration parameters; and invention I has separate utility such as a knowledge base of workload descriptions and associated configuration parameters; and a controller for applying individual ones of said selection of configuration parameters to the cluster of nodes to achieve an improved state of operation; these are patentable distinct features of invention I. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and search for Groups II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete **must include an election** of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (i).

### ***Conclusion***

A shortened statutory period for response to this action is set to expire **one month (not less than 30 days)** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).
